

Q1 Initial Prices

Set 1 -> Call: 12.085380013710122 Put: 4.397014652374142

Set 2 -> Call: 12.12304707401244 Put: 4.434681712676475

===== QUESTION 2 =====

NOTE: Basic binomial is exponential. Using small M only.

M = 5, Lookback Price = 9.121041939975566

M = 10, Lookback Price = 10.081452633538287

===== QUESTION 3 =====

M = 25, Markov Price = 369221823.0590355, Time = 0.019179582595825195

M = 50, Markov Price = 1.2960175178004532e+16, Time = 0.15436625480651855

M = 100, Markov Price = 1.5070778103058568e+31, Time = 2.307940721511841
